

Port Services

JUMS | Ocean driven.

Jetwave Marine Services

Jetwave Marine Services Pty Ltd is a WA based company offering the very best in specialised offshore utility vessels and marine based services.

Since our formation in 2005 we have established a reputation as a reliable, customer orientated operator in Australian Water Ways. JWMS now owns and operates a variety of harbour tugs, utility vessels, accommodation vessels, barges, multi-cats and port service vessels that cater for all client requirements.

JWMS services include, commercial diving, Ropes & moorings and Onshore Logistics. We have established and maintained our primary goal of supplying the very best in ocean logistic services, both offshore and in port operations for the oil and gas plus resource sectors.

We are passionate about our product, our brand and our greatest asset still remains our employee's. JWMS Prides itself on providing quality staff and service, both of which feed into our exceptional safety standards. This is supported and managed through the Jetwave HSEQ Management System and its success is evidenced by the present zero LTI rate.

JWMS has International Certification with Global Group for ENV ISO 14001:2004, OHSAS 18001:2007, QA ISO 9001:2008 JWMS has current operations in Fremantle, Exmouth, Onslow, Dampier, Port Hedland, Broome and Darwin.

Harbour and Terminal Towage

Jetwave provides coastal, terminal and harbour towage services Western Australia wide, from Broome to Fremantle. Our experienced well trained marine team, equipment and vessels are able to cater for all sized vessels.

We have strategically located assets in most major ports available at short notice for ad-hock and long term engagements.

Launch and Lines Vessels

Through our operational presence in Western Australian ports, JWMS is extremely well positioned to cater for all port operational requirements.

Our customised fleet of in port service vessels cater for all port operations such as, running of ship lines, tug assist, cargo and hot shot runs, personnel / pilot transfers, multi-cat anchor handle op's, diving support plus Nav Aid maintenance assistance.
