JWMS Quality Policy

(ISO 9001:2008 Clause 5.3)

It is the policy of Jetwave Marine Services (JWMS) to maintain an efficient and effective working environment by implementing and using good management systems and processes. These are focused on enhancing our ability to maintain high standards of safety and environmental management, and thereby adding value for our clients.

This policy promotes the philosophy that all employees are responsible for:

- achieving excellence in understanding and meeting the requirements of our clients
- continually improving business standards and efficiencies
- continuous improvements in operational competence through feedback.

These goals will be achieved by:

- striving for a consistent, planned approach to our routine work systems
- sound processes, and procedures
- nominating owners of documents who are responsible for their maintenance
- performing ongoing audits, corrective actions and reviews to improve continuously

The attendant controlled method of procedures and working documents, e.g. manuals, drawings, etc. are provided to give assurance that by their use, a consistent approach and a reliable work environment for all personnel is maintained.

This Policy has been reviewed and endorsed by the management of JWMS who foresee benefits in, and take responsibility for, its successful implementation.

By accepting employment with the Company, each employee accepts that they are responsible for the application of this policy.

Success in implementing this policy will ensure that JWMS continue to learn from experience in implementing the highest quality of service to our valued clients.

Michael Hansen
 Managing Director
 Jetwave Marine Services
