Jetwave Marine Services

Jetwave Marine Services Pty Ltd is an Exmouth based company offering the very best in specialized offshore utility vessels and marine based services. Since our formation in 2005 we have established a reputation as a reliable, customer orientated operator in the North West of Australia.

JWMS now owns and operates a variety of offshore utility vessels, accommodation vessels, barges, multi-cats, tugs, dredging support vessel options and port service vessels that cater for all client requirements. Other marine services offered by JWMS include commercial diving, mooring design and installation. We have established and maintained our primary goal of supplying the very best in ocean logistic services, both offshore and in port operations for the oil and gas plus resource sectors.

We are passionate about our product, our brand and our greatest asset still remains our employee's. JWMS Prides itself on providing quality staff and service, both of which feed into our exceptional safety standards. This is supported and managed through the Jetwave HSEQ Management System and its success is evidenced by the present zero LTI rate.

JWMS has International Certification with Global Group for ENV ISO 14001:2004, OHSAS 18001:2007, QA ISO 9001:2008 JWMS has current operations in Fremantle, Exmouth, Onslow, Dampier, Port Hedland and Broome. Our Beadon Creek Marine Support Base facilities are due to be completed in 2016.

Offshore Vessels

JWMS owns and operates a fleet of specialised offshore utility and in port service vessels that cater for all client operational aspects in the Oil & Gas and Resources Industries, including but not limited to the following:
